Thank you for choosing Chattanooga Eyecare! Below is a checklist of things to do to get ready for your upcoming appointment and other specifics about Chattanooga Eyecare.

- If for any reason you are unable to make your appointment, please let us know 24 hours in advance, as we have reserved this spot specifically for you.
- Payment for services rendered will be collected the day of service.
- If you have insurance, bring both your vision and medical insurance cards. We will collect any copays or non-covered service fees on the day of service and will reschedule any services, lens fittings or eyewear orders that you are unprepared to pay for at the initial appointment. Our staff will assist in verifying your benefits coverage.
- Please click [here](#) to fill out your paperwork electronically. You can also find educational material [here](#) as well.
- Bring your glasses, computer glasses, prescription sunglasses, and contact lens prescription (if applicable). If you want to try contacts and have never worn them before, you can click the image below for an online tutorial:

- Dilation of your eyes may be a temporary inconvenience; however, the benefits far outweigh the inconvenience. The pupil of the eye is the "window of the human body." The use of dilation drops temporarily increases the size of your pupils, which allows us to accurately investigate the health of your eyes and many important aspects of your general health. With this valuable procedure, I am providing you with the most thorough examination possible.
 - The effects of eye dilation drops will diminish gradually and typically takes about two hours to wear off. During this time, reading ability may be more difficult and your sensitivity to light may increase. For a short time, wearing sunglasses may be a necessary comfort.
 - Notify my staff if you feel your distance vision is excessively blurred before attempting to drive home.
 - Call my office immediately if you experience excessive pain, discomfort, or nausea.
 - Thank you in advance for your patience during this important procedure.
- Like our Facebook page for updates, open house & trunk show events. Follow us on Instagram (@chattanoogaeyecare) for visual tips and trending eyewear products. And, look for periodic email newsletters for office updates and eye health topics.

Thank you and have a wonderful day.
